Editors' Note

Dear lovely readers,

"Any task well accomplished gives satisfaction and the one just completed is no exception"

- Jim Corbett

This was the golden line that came to our mind on the day we had finally sent this magazine for printout. We now deliver you with "THE INEFFABLE"- the magazine which contains articles of Computer Science, Information technology, Mathematics and Physics. Here, we have gathered our Science students' ineffable works which bring their talents to the spotlight. Being a part of the Editorial Board of this magazine, it was a proud moment for us to be its Editors for the session 2018-19. But it was not an easy task for us to carry our responsibilities smoothly due to the vast and diverse amount of works associated in making this magazine to the level that will be acceptable to all. We are blessed enough to get a very good support from the faculty members specially the Advisory Board of our magazine; an extremely good, dedicated and hardworking Editorial Board, other staffs and also a very good response from the authors of various writings to the magazine. Now, standing at the twilight of our tenure as the Editors, Students' Magazine 2018-19, we thank all the people who have extended a helping hand in successfully making the magazine. Wishing all the best to the next Editor and their team!

Life

Life is a gift, I treasure it.

Life is an adventure, I challenge it.

Life is a mystery, I learn from it.

Life is a puzzle, I'm solving it.

Life is a game, I'm playing it.

Life is a struggle, I'm facing it.

Life is Beautiful, I'm embracing it.

Life is an opportunity, I'm taking it.

Just fun...

Wife: Why our funds get lesser every week?

Husband: The problem is that, I work for 5
days a week & you spend 7 days a week .

Student: Why doubt has 'B' on it?

Teacher: Doubt itself has a doubt why it has 'B' on it.

Aysha: I've the most unusual watch to offer you.
It does not need any repairs or winding. It has no hands,
no sweep seconds dial & no face.

Zuhaira: But how can you tell the time?

Aysha: That's easy, ask anybody else.

Faleela: What nationality are you?

Fahmiya: Well my dad was born in Ice land & my mom was born in Cuba.

Faleela: Oh! So, you are an Ice-cube.

Mother: Sam, What would you do if your little sister swallowed the door key?

Shireen: I'll climb through the window.

Computer Facts

Computers have become a very important part of our daily life. This awesome machine changed our lives in so many ways. There are lots of interesting facts about computer that I thought you would be interested in. That's why I've listed 20 of them that you can check out

Some of these computer facts might just blow your mind! so be prepared for that blast.

1. The first electronic computer ENIAC weighed more than 27 tons and took up 1800 square feet.

2. Only about 10% of the world's currency is physical money, the rest only exists on computers.

3. TYPEWRITER is the longest word that you can write using the letters only on one row of the keyboard of your computer.

4. Doug Engelbart invented the first computer mouse in around 1964 which was made of wood.

5. There are more than 5000 new computer viruses are released every month.

6. Around 50% of all Wikipedia vandalism is caught by a single computer program with more than 90% accuracy.

7. If there was a computer as powerful as the human brain, it would be able to do 38 thousand trillion operations per second and hold more than 3580 terabytes of memory.

8. The password for the computer controls of nuclear tipped missiles of the U.S was 00000000 for eight years.

9. Approximately 70% of virus writers are said to work under contract for organized crime syndicates.

10. HP, Microsoft and Apple have one very interesting thing in common – they were all started in a garage.

Mathematics Quotes by Mathematicians,

Philosophers, and Enthusiasts

1 Mathematics is the supreme judge; from its decisions there is no appeal.—Tobias Dantzig

2. Mathematics is no more computation than typing is literature.—
John Allen Paulos

3. Mathematics is the language with which God wrote the universe.
— Galileo

4. Mathematics is the handwriting on the human consciousness of
the very spirit of life itself. — Claude Bragdon

5. Mathematics is the queen of science. — Carl Friedrich Gauss

6. Mathematics may be defined as the subject in which we never
know what we are talking about, nor whether what we are saying is
true. — Bertrand Russell

7. Mathematics consists in proving the most obvious thing in the
least obvious way. — George Polya

8. Mathematics is like love; a simple idea, but it can get
complicated.

9. Mathematics is like checkers in being suitable for the young, not
too difficult, amusing, and without peril to the state. — Plato

10. Mathematics is not a deductive science — that's a cliché. When
you try to prove a theorem, you don't just list the hypotheses, and
then start to reason. What you do is trial and error, experimentation,
guesswork. — Paul Halmos

11. Mathematics is written for mathematicians. —
Copernicus

12. Mathematics is a great motivator for all humans..
Because its career starts with zero and it never end (infinity).

13. Mathematics is not a book confined within a cover and bound between brazen clasps, whose contents it needs only patience to ransack; it is not a mine, whose treasures may take long to reduce into possession, but which fill only a limited number of veins and lodes; it is not a soil, whose fertility can be exhausted by the yield of successive harvests; it is not a continent or an ocean, whose area can be mapped out and its contour defined: it is limitless as that space which it finds too narrow for its aspirations; its possibilities are as infinite as the worlds which are forever crowding in and multiplying upon the astronomer's gaze.
— J. Sylvester

14. Mathematics is, I believe, the chief source of the belief in eternal and exact truth, as well as a sensible intelligible world. — Bertrand Russell

15. Mathematics is the tool specially suited for dealing with abstract concepts of any kind and there is no limit to its power in this field. — P. Dirac.

16. Mathematics is not only real, but it is the only reality.
— Martin Gardner

NOTE FROM THE EDITORS...

Dear Readers,

The Editorial Board of our college proudly presents the students' works from the departments of Economics, Business Administration, and Commerce in the form of the Students' Magazine "**THE ETHEREAL**" which serves as a platform to highlight the students' writings, creative art, and many more. The essential purpose of this magazine is to inform, engage, inspire and entertain a diverse readership for students of our College. This magazine endeavors to reflect the values and the quality of our students. This cannot be achieved without the help of our editorial board members, our guiding staff members, faculty members and our fellow students. We thank you for your support.

PENCIL : I'm sorry

ERASER : For what?

PENCIL: I'm sorry, you get hurt because of me, whenever I make a mistake, you're always there to erase it. You lose a part of yourself and get smaller each time

ERASER: That's true, but don't mind you see, i was made to do this I was made to help you every time you did something wrong. Even though one day I know I'll be gone. I'm happy with my job so please stop worrying, I'll not be happy if I see you sad.

OUTSOURCING

Saving cost is of paramount priority,
Outsourcing is a solution of majority,
Vendors bit for project with solution,
But pricing is the thing which sets in motion,

Among them one wins, many lose,
As overall there is not much to choose,
Tough battle between on site and offshore
starts,
With managers blame- game put things to a
halt,

Both parties make each other a fool,
As for them the issue is always with the
tool,
Offshore team members dream of onsite,
But H1 virus & internal permission are out
of sight

They think "Where there is a will there is a way"

After October there is again a may,

The vendor believes in "Fight fight never / surrender"

Client hopes that they do not commit a blunder,

Team member perform and discharge their duties with loyalty'

But for the company it is always about billability

You met me as a stranger
You left me a friend
I hope we meet again
Because friendship never ends

our lovely times together

I shall cherish

And for lovelier more

To God I'll wish

Time and distance

May keep us apart

But your memories will be

Forever in my heart

Our reunion my friend

Shall be sweet

I wish you cheer, success all the more.

TEARS Vs BLOOD

AT THE AGE OF 3, WE STARTED OUR STUDIES WITH TEARS IN EYES, AT THE AGE OF 20, WE ARE COMPLETING OUR STUDIES WITH TEARS IN HEART...THE FIRST TEARS ARE MORE WATERY BECAUSE WE MISSED OUR PARENTS. BUT , THE SECOND TEARS ARE MADE OF BLOOD AS WE WILL MISS OUR FRIENDS. THIS IS WHAT FRIENDSHIP IS...

7-UP

- WAKE UP - Decide to have good day.
- DRESS UP - The best way to dress up is to put on a smile.
- LOOK UP - Keep yourself centered. Remember you are important.
- STAND UP - For what you believe in, stand up for something you will fail in everything.
- SHUT UP - Only say nice things and learn to listen.
- REACH UP - For something higher. Trust with all your heart and learn not to your own understanding.
- LIFT UP - Remember GOD in prayer.

The best in you

Hate but love more

Argue but agree more

Talk but listen more

Punish but give more

Then, the people will like you

More than you like them

Here is no oil if olives are not squeezed

No wine if grapes are not pressed

No perfumes if flowers are not crushed

do you under any pressure in life?

Don't worry! God is just bringing out

The best in you...

EDITORS' PAGE

.....

Dear readers,

We present you with "THE AURORA"-the magazine which contains articles of English, Arabic and Tamil. This "AURORA" is the compilation of the immense effort put forward by the talented Wajeehans and is also a specimen of their creativity. Their works were so vivid that all our efforts to include their accomplishment in one issue went in vain. This magazine is not the outcome of the effort put in by an individual, like they say "a flower makes no garland" but it's an immense effort put forward by first and foremost our guiding staff members and then the editorial board and all teachers and my fellow students. We apologize for any shortcomings and hope you will cherish and support our effort. Have a blissful today, tomorrow and every day. Happy reading!

FRIENDSHIP

Why God gives us Friends?
God knew that everyone needs
Companionship and Cheer
He knew that people need someone
Whose thoughts are always near.
He knew they need someone kind
To lend a helping hand
Someone to gladly take the time
To care and understand
God knew that we all someone

To share each happy day,
To be a source of courage
When troubles come our way.
Someone to be True to us
Whether near or far apart
Someone whose Love we'll always
Hold and Treasure in our Hearts.
That's why God gave us Friends.
That's why God gave me a Good Friend.
Thanks to God
Who gave me a Good Friend...

MOTHER'S LOVE

My Mother kept a Garden
A Garden of the Heart
She planted all the good things
That gave my life its start.
She turned me to the Sunshine
And encouraged me to Dream
Fostering and Nurturing
The seeds of Self-esteem...
Her constant good example
Always thought me right from wrong
Makers for my pathway
That will last a lifetime long
I am my Mother's Garden
I am her legacy
And I hope today she feels the love

FACT ABOUT PSYCHOLOGY

- Psychology says, no matter how angry you get, you always end up forgiving the people you love.
- Psychological studies found that, people who are generally 'Too nice' are also ones to get hurt the most.
- People who laugh more are better to tolerate both Physical and Emotional pain.
- The desire to sleep a lot may reveal feelings of loneliness, anxiousness or depression.
- People who put two dots after signature are the people who never leave a work incomplete.
- The people who give the best advice are usually the ones with the most problems.
- After listening to the Music, you feel positive.
- Psychologists say that when meeting someone for the first time, you only have about 7 seconds to make a powerful first impression.
- Of all the hardships a person must face, none is more punishing than the simple act of waiting.
- 90% of people text things they cannot speak.

SAVE OUR PRECIOUS MOTHER EARTH

The Earth has music for those who listen
Be the change you wish to see in the world
Save the Earth, it's the only planet with chocolate

Earth does not belong to us;

We belong to Earth

The "Earth" without "Art" is just "Eh"

Save the mother Earth, stop destroying forest

Plant a tree, grow a flower, let's give mother earth

Back her Power!

THOUGHTS TO DEVELOP

- Everyone wants Happiness
No one wants Pain
But you can't have a Rainbow
Without a little Rain
- If you compete with others
You become bitter
But if you compete with yourself
You become better
- The two most important day in your life are
the day you are born and the day you find out
why;
- A bad attitude is like a flat fire, You can't go

It is impossible for a creature
To live without the support of Nature
The Nature itself has many features
It prevents Global Warming
About which scientists are still warning
The crops that grow in the field
Give farmers a good yield

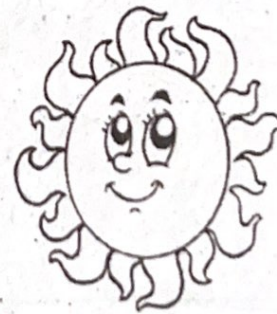

It gives rise to rainfall
Without which the population will fall
Thus the Nature is so good
That we should convert it into any
Thus we can enjoy a better future
Only if we start conserving the Nature
Therefore, now itself ask your tutor
