**"READING IS TO MIND WHAT
EXERCISE IS TO THE BODY"**

Editor's Note

Dear readers,

"To me, the greatest pleasure of writing is not what it's about, but the inner music the word make".

-Truman Capote

In agreement with the above quote, I find writing is the most valuable literary expression. Our **WAJEEHAN** authors have put across some amazing piece of writing displaying their creative thinking and writing skills. It is actually a lovely experience to see these enthusiastic writers voicing their feelings through poems, verses, facts, riddles etc...

We are thankful to our blooming writers who have responded to all our call and send their ideas for this **AURORA 2019-20** and I would like to extend my sincere thanks to our guiding staff members, editorial board, all teachers and my fellow students.

Finally, from the entire team of **"THE AURORA"** we wish all the readers a **HAPPY READING**.

Dr. A.P.J. ABDUL KALAM'S QUOTES

- When life give you a hundred reasons to cry, show life that you have hundred reasons to smile.
- Dream what you want to dream, go where you want to go, be what you want to be. Because you have only one life and one chance to do all the things you want to do.
- Advice is what we ask for when we already know the answer but wish we didn't.
- End is not the end, in fact END means "Efforts Never Dies".
- Past is a "waste paper"

For all the time you spend;
For all the kind things that you do

INSPIRATIONAL QUOTES ABOUT LIFE

Every second you have on this planet is very precious and it's your responsibility that you're happy.

Lighten up, just enjoy life, smile more, laugh more and don't get so worked up about things.

Nobody can predict the future; the idea is to have a firm grasp of the present.

"VERY LITTLE" is needed to make a happy life; it is all within yourself, in your way of thinking.

"Don't wait around for someone else. To tell your story. Do it yourself by whatever means necessary"...

- J. Pavithra,
II - B.A. English.

Female child

Not consider the female child as burden!

As you not know the matter which is hidden!

You may depend her in your end!

That is an unwritten bond

Only she will come to bear in your inability

That is the law of humanity

She is your life insurance,

In your old age that will give assurance.

She is your life long fund,

Which will strengthen your hand!

She is your life long savings account!

Which will never decrease when you count!

**-M. Mohamed Noor Asma,
I B.A. English Lit.**

FRIENDSHIP

There are few people who
Will come into your life and
Really get to know you,
Understand who you are, what
You have been there & what
Matters most in your life,
Make sure you know who this
Small circle of people are and
Hold them dear to your heart for
They are truly good for your soul,
They are your true FRIENDS...

Let's be aware as we walk on this planet
Even the tiniest creature needs room.

Lessons in life aren't always so simple
Nothing you've given will ever come free
Even the smallest of gifts deserve "Thank you"

I respect you and you respect

I think of you and you think of me

Remember everyone here is important
When you're forgotten it makes you feel sad
Know that you matter and you make a
difference

Let no one shame you or make you feel bad.

THE AGE OF STEAM

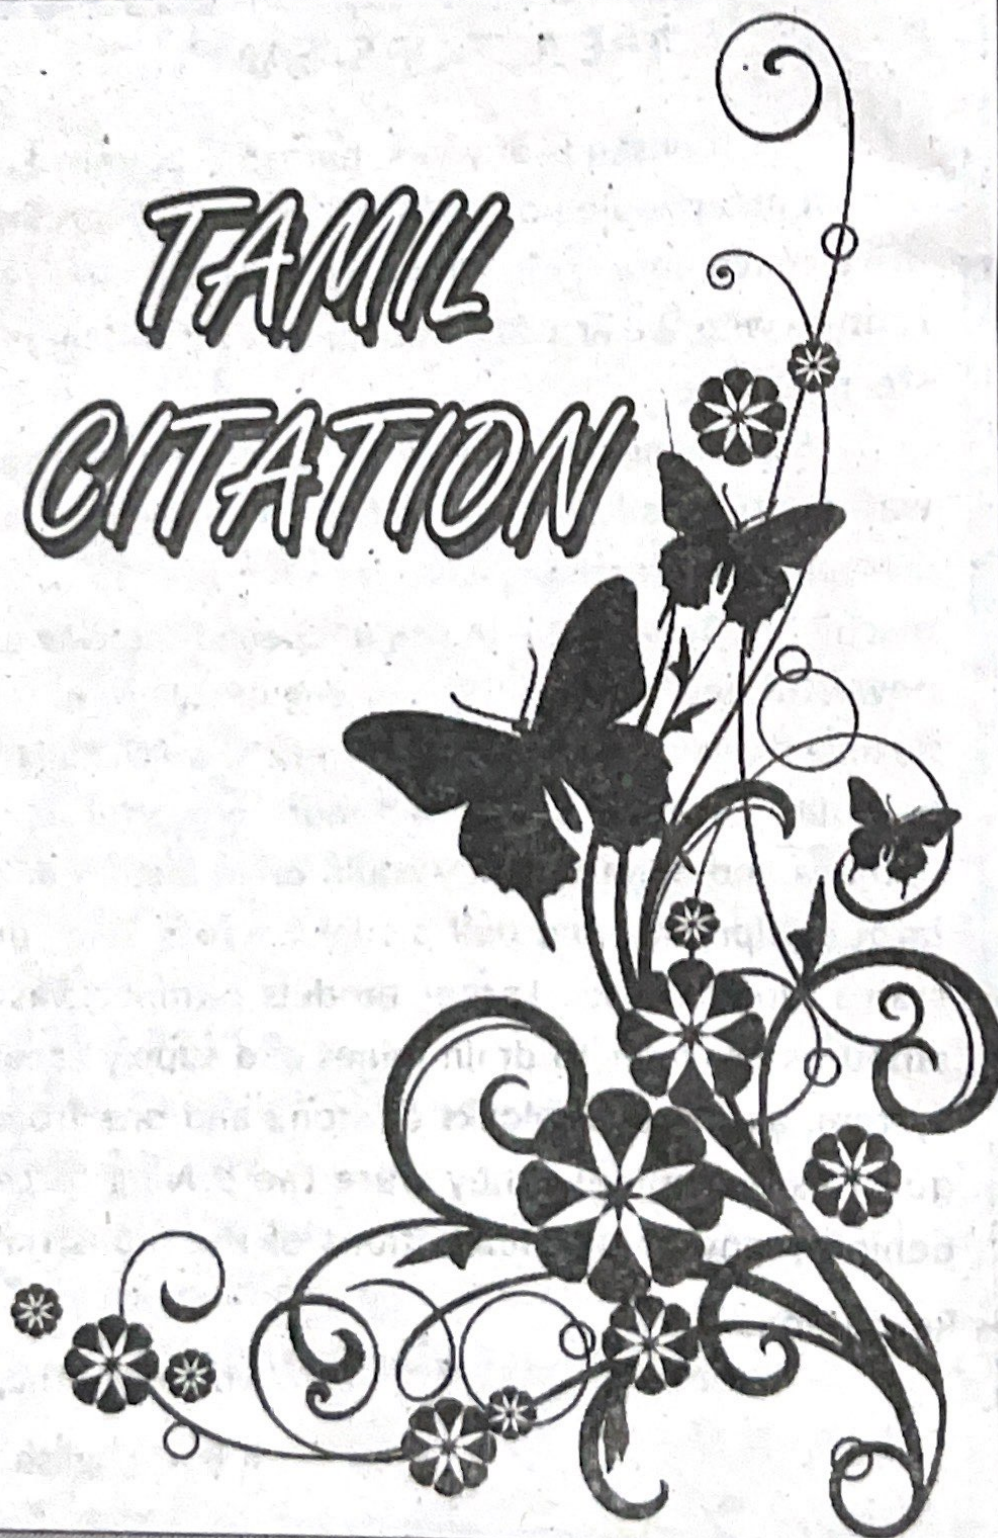

For thousands of years, humans had relied on animal and people power to move heavy loads and drive machinery. This all changed in the late 18th century with the arrival of a bold new invention; the steam engine

Steam engines operate by burning fuel to heat water until it boils. Hot steam from the boiling water is trapped to create pressure, which is used to drive machinery. This simple principle opened the way to powerful new engines. Steam engines were more flexible than windmills or water wheels, which had to be built in specific places and more powerful than humans and animals. They could drive factory and farm equipment, and pull ploughs across fields or trains along tracks. Larger models pumped vast amounts of water to drain mines and supply canal system, and hauled blocks of stone and one from quarries and mines. They were the driving force behind many of the innovations of the Industrial Revolution.

வெற்றி நிச்சயம்

இமயத்தைத் தொடுவதைவிட

இதயத்தைத் தொடு !

கண்ணீரைக் கடந்து வா !

சிகரத்தை எட்டுவதை விட

சிந்தனையைக் கொட்டு !

வானத்தை பிடிப்பதை விட

வாழ்க்கையைப் பிடி !

முட்களை எடுப்பதை விட

மலர்களை எடு !

கனவைக் கோட்டையாக்கு

தோல்வியைக் சாவியாக்கு !

முட்களைத் தாரையாக்கு அப்போது

வாழ்க்கை உன்கையில் !

தோல்வி உன் காலடியில்

வானம் உன் கையருகில் !

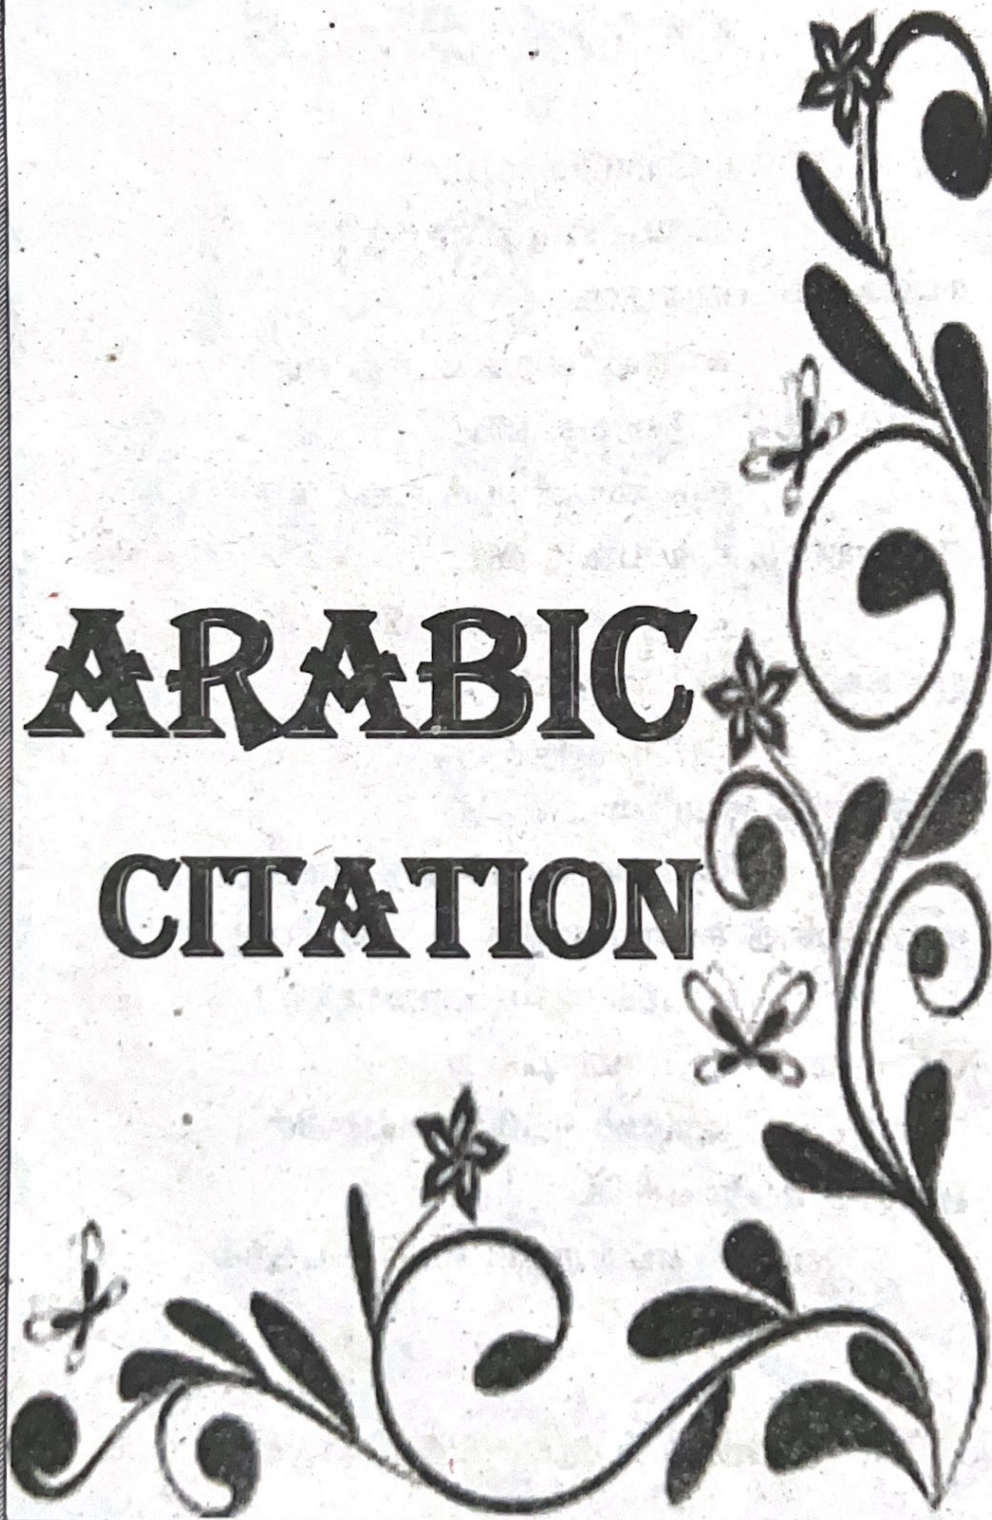

இமயம் உன் எதிரில்

வெற்றி எப்போதும் உன்னிடத்தில் !
