### **Editor's Note**

Dear readers,

**"To me, the greatest pleasure of writing is not what it's about, but the inner music the word make".**

**-Truman Capote**

In agreement with the above quote, I find writing is the most valuable literary expression. Our **WAJEEHAN** authors have put across some amazing piece of writing displaying their creative thinking and writing skills. It is actually a lovely experience to see these enthusiastic writers voicing their feelings through poems, verses, facts, riddles etc...

We are thankful to our blooming writers who have responded to all our call and send their ideas for this **AURORA 2021-2022** and I would like to extend my sincere thanks to our guiding staff members, editorial board, all teachers and my fellow students.

Finally, from the entire team of **"THE AURORA"** we wish all the readers a **HAPPY READING**.

**"Education is the passport of the future, for tomorrow belongs to those who prepare for it today"**

**-Malcom.X

## **CORONA VIRUS**

Before the virus, I went to school,  
everything was happy.  
Now I see people with face masks and few cars  
But I am happier to have more time with my mom  
And I have more days to play.  
I'm afraid that my family and friends will get sick.  
I miss playing with my friends at school.  
I miss visiting my grandparents at their house.  
I dream about seeing my best friend  
And then going to the beach.  
While this [lockdown] happens,  
I draw pictures, I play  
And I do homework.  
I hope that this ends so  
I can go back to seeing my friends.  
When all this end, I will go to the park to skate.  
All this will pass, we will be fine,  
If we take care of ourselves [and] wash our hands,  
The virus will die.  
Stay at home so we can go out

## **Impact of COVID-19 on People's Livelihood their health and our food systems**

The COVID-19 pandemic has led to a dramatic loss of human life worldwide and presents an unprecedented challenge to public health, food systems and the world of work. The economic and social disruption caused by the pandemic is devastating: tens of millions of people are at risk of falling into extreme poverty, while the number of undernourished people, currently estimated at nearly 690 million could increase by up to 132 million by the end of the year.

Millions of enterprises face an existential threat. Nearly half of the world's 3.3 billion global work force are at risk of losing their livelihoods. Without the means to earn an income during lockdowns, many are unable to feed themselves and their families. For most, no income means no food, or, at best, less food and less nutritious food.

Millions of agricultural workers – waged and self-employed – while feeding the world, regularly face high levels of working poverty, malnutrition and poor health, and suffer from a lack of safety and labour protection as well as other types of abuse. With low and irregular incomes and a lack of social support, many of them are spurred to continue working, often in unsafe conditions, thus exposing themselves and their families to additional risks.

**I B.Sc Maths**

## **Made in China**

They can have my money  
If it saves me money  
The keys I played with when I was young  
Say I enjoyed their hands  
The labels read  
"Made in China"  
The cheap material on my bag & the shoes I wore  
How easily they fade & tear  
However, I enjoyed there hands  
The tags on my rays  
"Made in China"  
The car I own saves money on my gas  
A tiny honda civic takes me everywhere  
I love my sweet silver car  
"Manufactured in China"  
The never been used  
Made in USA - cook I own  
Say's I don't work hard at all  
Yummy to Chinese all you can eat take outs  
Thank you China for being a part of this world  
Better yet!  
Thank you China for making this world a part of yours

**\*Business quotes\***

"Business is like riding a bicycle: either you keep moving or you fall down"

"The Business is coming to realise that, Education is to Business what fertilizer is to farming:

"Coming together is beginning  
Keeping together is progress  
Working together success"

"A company is a long shadow of the boss"

"Only those who can give the best for the least will survive and others will be for sale"

"The means of production should be society owned and controlled for the benefit of society as a whole"

"All for one and one for all"

**Aafrin A**  
**III BSc IT**

## **Before the computer**

"An application" was for the employment

"A program" was a TV show

"A cursor" used profanity

"A keyboard" was a piano!

"Memory" was something that you lost with age

"A CD" was a bank account!

And if you had a broken "disk"

It would hurt when found out!

"Compress" was something you did to garbage

Not something you did to a file

And if you "unzipped" anything in public

You'd be in jail for a while!

"Log on" was adding wood to a fire

"Hard drive" was a long trip on the road

"A mouse pad" was where a mouse lived

"And a backup" happened to command!

"Cut" you did with a pocket knife

"Paste" you did with glue

"A web" was yet spider's home

And "a virus" was the flu!

We make language more convenient. If you have problem in language don't worry we will help you if you think we are going to take class then your assumption is wrong. We are adults ready to to help youwith our app that is L2L extension of L2L is language to language.

Everybody doesn't know all languages we help them converse with others in the language that they want.

Features:

We can translate all countries official languages.

Using this app you can chat, voice calls, video calls in your mother tongue. It automatically translates into other language which you've selected. For example, if you select # Tamil T60 # English it translates Tamil into English at that instant. It is mainly used for business deals, for students it helps to improve communication and language skills.

### **Technical quiz**

1. Who is known as the father of supercomputing?

Seymour Cray

2. Who programmed the first computer game 'spacewar' in 1962?

Steve Russell

3. Which operating system is developed and used by Apple?

iOS

4. Linus Torvalds developed which operating system?

Linux

5. A dual layer blue ray disc can store data?

50GB

**Snowlin T**

**II BSc CS**

## **Final Touch**

"Your time is limited; don't waste it living someone else's life. Don't be trapped by dogma, which is living the result of other people's thinking. Don't let the noise of other's option drown your own inner voice. And most important, have to courage to follow your heart and Intuition, they somehow already know what you truly want to become. Everything else is secondary".

"Success comes down to hard work plus passion, over time. If you work rally, really hard over a long period of time, it will pay off."

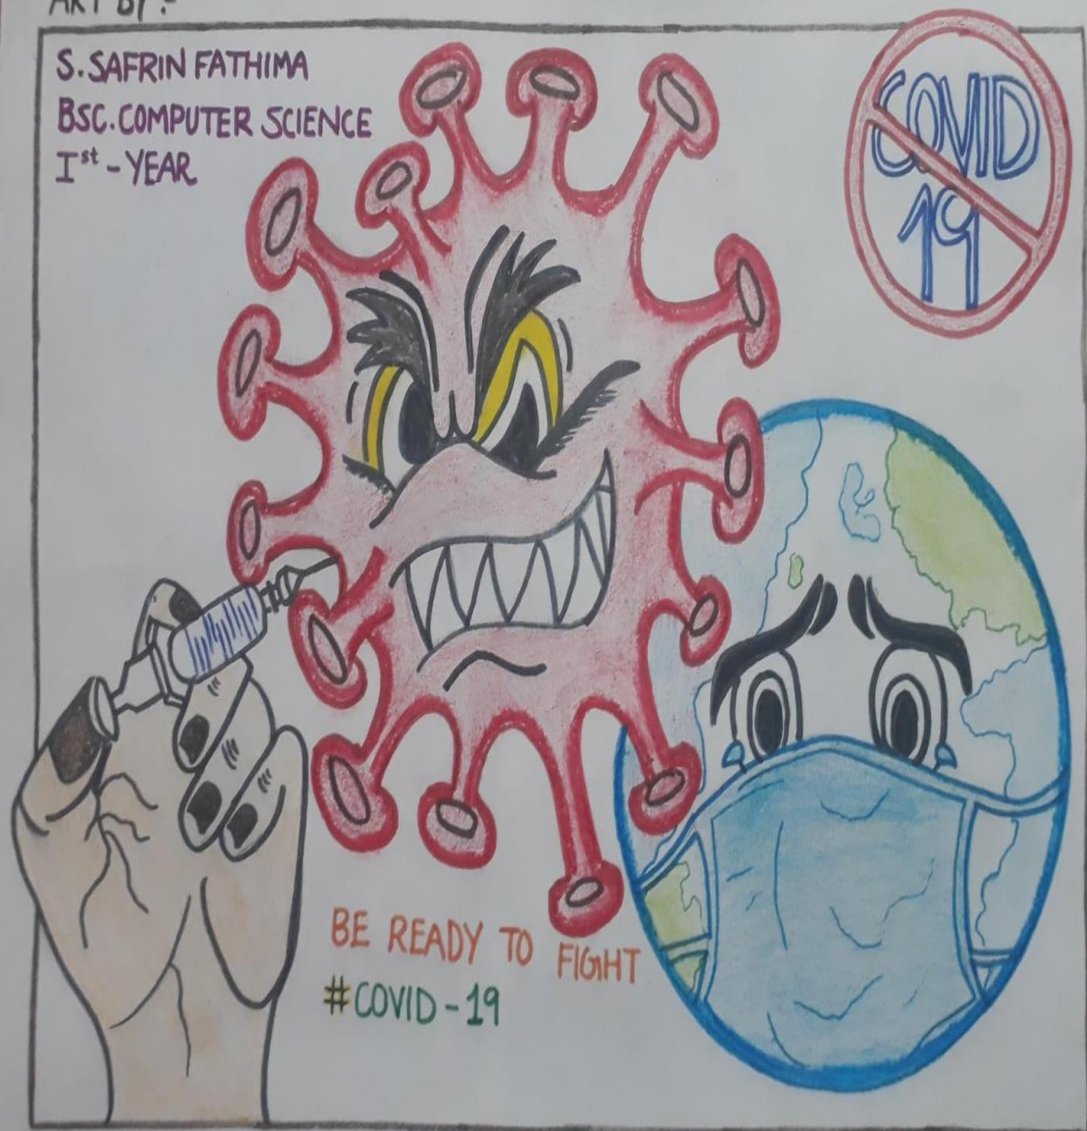

"Whatever happens to you doesn't fall in despair. Even if all the doors are closed, a secret path will be there for you that no one knows. You can't see it yet but so many Paradises are at the end of this path....Be grateful! It is easy to thank after obtaining what you want, thank before having what you want".

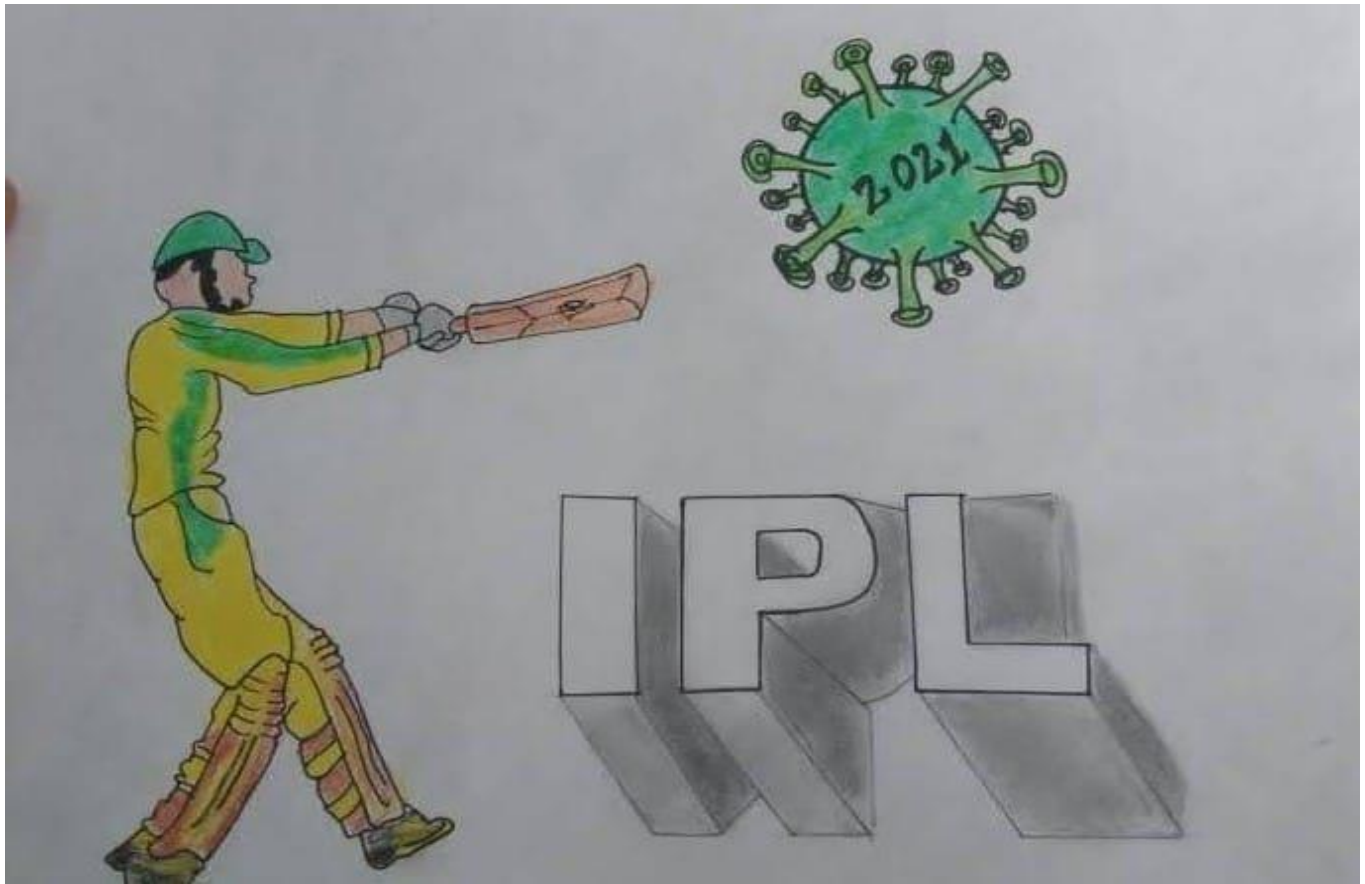

Nothing will with power is working against me. Everything with power is working for me. At the centre of my being is that which cannot be intimidated, threatened, or oppressed.

## NOTE FROM THE EDITORS...

Dear Readers,

The Editorial Board of our college proudly presents the students' works from the departments of Economics, Business Administration, and Commerce in the form of the Students' Magazine "**THE ETHEREAL**" which serves as a platform to highlight the students' writings, creative art, and many more. The essential purpose of this magazine is to inform, engage, inspire and entertain a diverse readership for students of our College. This magazine endeavors to reflect the values and the quality of our students. This cannot be achieved without the help of our editorial board members, our guiding staff members, faculty members and our fellow students. We thank you for your support.

## **COVID -19 PANDEMIC IN INDIA**

The COVID-19 Pandemic in India is a part of the worldwide pandemic of corona virus disease 2019 (**COVID-19**) caused by severe acute respiratory syndrome corona virus 2 (**SARS-CoV-2**). As of 22 June 2023, according to Indian Government figures, India has the second-highest number of confirmed cases in the world (**After the United States of America**) with 44,993,543 reported cases of COVID-19 infection and the third-highest number of COVID-19 deaths (after the United States and Brazil) at 531,896 deaths, both directly and indirectly related to COVID-19 to have taken place in India.

The first case of COVID-19 in India was reported on 30 January 2020 in three Indian Medical Students who had returned from Wuhan, the epicenter of the pandemic. Lockdowns were announced in Kerala on 23 March and in the rest of country on 25 March. Infection rates started to drop in September. Daily cases peaked in Mid-September with over 90,000 cases reported per-day, dropping to below 15000 in January 2021. A Second wave beginning in March 2021 was much more devastating than the first, with shortages of vaccines, hospital beds, oxygen cylinders and other medical supplies in parts of the country. By late April, India led the world in new and active cases. On 30 April 2021, it became the first country to report over 400000 new cases in a 24-hour period. Experts stated that the virus may reach an endemic stage in India rather than completely disappear; in late August 2021 Soumya Swaminathan said India may be in some stage of endemicity where the country learns to live with the virus.

India began its vaccination programme on 16 January 2021 with AstraZeneca vaccine (**Covishield**) and the indigenous **Covaxin**. Later Sputnik V and the Moderna Vaccine were approved for emergency use too. On January 30, 2022, India announced that it administered about 1.7 billion doses of vaccines and more than 720 million people were fully vaccinated.

### **How did the corona virus start?**

The first case of COVID-19 was reported December 1, 2019 and the cause was a then new corona virus later named SARS-Cov2, SARS-CoV-2 may have originated in an animal and changed (mutated) so it could cause illness in humans. In past, several infectious disease outbreaks have been traced to viruses originating in birds, pigs, bats and other animals that mutate to become dangerous to humans. Research continues, and more study may reveal how and why the corona virus evolved to cause pandemic disease.

## **RIDDLES**

1. I shoot but never kill what am I?

Ans: Camera

2 . What A-letter word can be written forward backward or upside down and can still be read from left to right?

Ans: Noon

3. Everyone has me but nobody can lose me?

Ans: Shadow

4. I have single eye but I cannot see what am I?

Ans: Needle

5. What goes up but never comes down?

Ans: Age

6. I have 6 faces and 21 eyes but I cannot see what am I?

Ans: Dice

7. I am full of holes but still holds water what am I?

Ans: Sponge

8. If I have it, I don't share it. If I share it, I don't have it who is it?

Ans: Secret

9. What has teeth but can't Bite what am I?

Ans: Comb

10. I always run but never walk what am I?

Ans: River.

### Poetry of Corona

In the midst of chaos, when fear runs high, a tiny virus spreads making the world sigh.  
Corona, a name that echoes with dread, it brought us closer, in ways we hadn't tread.  
In isolation, we found a different pace, locked within our homes, seeking silence.  
We yearn for touch, for a human embrace.  
But distanced we stayed to keep the virus at bay.  
Empty streets echoed a melancholy tune, as the world paused, beneath the silver moon.  
The bustling cities turned easily still, and silence reigned, a void we couldn't fill.  
Yet through the darkness, hope ignited, in the hearts of warriors, undeterred, united.  
Frontline heroes, selflessly they stood fighting with courage, doing all they could.  
Families separated, longing for a touch, virtual hugs and kisses, meant so much.  
We learned to adapt, to connect through screens.  
Love transcended boundaries in digital means.  
In quarantine's embrace, we found time, to reflect to dream, to pen a rhyme creativity  
flourished, in the depths of our soul, as we turned to art, to heal and console.  
Nature breathed freely as we stayed away, pollution retreated and skies turned a  
brighter gray.  
The Earth whispered softly, "You see my child, Life was always fast-paced we never  
showed down, until everything stopped when corona came to town.  
Now all is quiet and there's peace all around, we'll be locked in our hearts and kindles we've  
found.  
We learn now with mum, this is new future, but we can't wait to get back to our  
teacher.  
I miss sea cadets, school, my friends and my dad; I miss sharing the fun times and  
make me sad.  
In the face of adversity harmony can be received".  
And as the storm rages on, we hold on tight, knowing together, we will emerge in the light.  
For in our resilience, lies a strength untold, we'll overcome, with compassion and courage  
bold.  
So let us remember this chapter in our history, a time when we faced a global Mystery.  
We've had social distancing picnics, social distance walks, Social distancing hugs and  
social distancing talks.  
I'm looking forward to getting away, The beach, the hotel and a perfect holiday.  
When it is? I'll throw my arms open wide, and shout to the world.

### **WE CAN ALL GO OUTSIDE!!!**

Don't give up hope, the end in sight, if we all stick together, we'll all win this fight.  
Corona, a foe that tests our might but love and unity shall lead us to the light.

## **EFFECTS OF CORONA**

There is social distancing

There is mourning

There are houseful hospitals

Whether there is redemption?

There is time to observe

There is time to think

There is time to write but

Whether it's the time to publish?

There still we found a new hope

There is so called online batch

There is online class

There is online examination

There is online publication

S. Naseeya Fasmin

I B.com

## **CORONA DAYS...**

We learnt to take precautions  
We learnt to isolate  
We learnt to wear mask  
We learnt to sanitize

We learnt to see a new world  
We learnt to buy oxygen  
We learnt to face deaths  
We learnt to bury corpses

We learnt to find a new way  
We learnt to embrace online mode  
We learnt to attend online class  
We learnt to do online business

We learnt what we haven't learnt  
We learnt human values  
We learnt the harsh realities of life  
We learnt finally to survive.
